# INERGA

## Concrete Commitments

INERGA is the national firm of realization of energy infrastructures. It is an economic public Algerian firm, joint stock company, of an authorized capital of 350 000 000 DA. It results from the National Society of Electricity and Gas (SONELGAZ) in January 1984.

**A score of years spent to gain the fidelity of its customers**

**Sphere of activity of INERGA**

engineering and construction of energy, industrial and real infrastructures. INERGA appears today among the principal ones and impossible to circumvent participants in the field.

INERGA manages the activities and process of its projects according to principles and rules of the international standard ISO 9001/2000. Its system Management Quality is certified since 1999.

**Its forces**

Its staffs are made up people whose expertise and experiment are tested. For each customer and each business, a single interlocutor from the first contact to the satisfaction of its needs.

INERGA is represented in all Algeria thanks to the establishment of its Plant Yards with Blida (centre area), Oran (western area), Constantine (East area) and Hassi Messaoud (Southern area).

INERGA does not choose its resources by chance, but quality (respect of the Client requirements) and prices are the principal criteria which direct its choices.

A system of Management Quality adapted perfectly to the activities of construction and continuously in development.

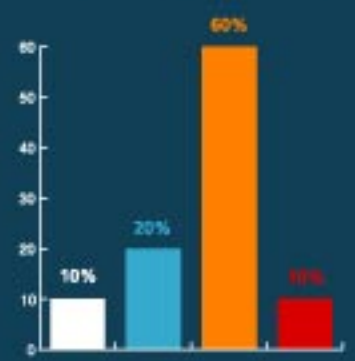

Serious in the relations with its customers who reassures them respect of all the commitments entered into.

**INERGA intervenes in the fields**

- Energetics
- Real estate and public works
